Weight:	2.5 Kg
Protection:	IP 65*
*Outside model only	

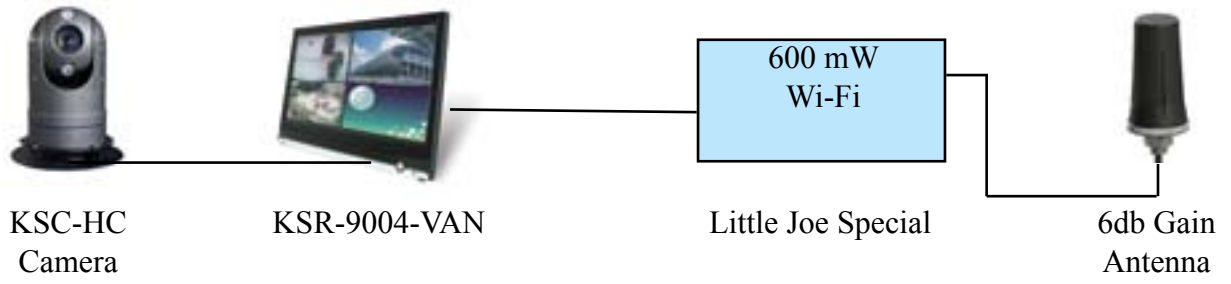

Description:

This is an amazing camera. We have inserted a new video server board as well as two other components which make the only camera that will work into a network system as well as an RS-485 controlled by a Pelco D controller. A perfect match with our new KSR-9004-VAN 4 channel DVR and monitor. Since the camera is networkable, a network card for long range surveillance or our "Little Joe" Wi-Fi system for 1/2 mile operations is ideal for Drop Car or surveillance van operations.
