### Description:

This new camera system is an up-grade from our old PIR camera. Look at all the features like Wi-Fi, network, & IP addressable. It is also P2P for easy remote access. The new CMS software will allow up to 64 IP cameras. Great for interrogation rooms, police departments, & covert ops. Also, get E-mail of photos as motion detects them. The built-in IP covers about a 10 meter area in total darkness. If you really like these features, call and let us put this system into your covert idea.
