NIGHT VISION SCOPE W/MONITOR

Wi-Fi
Connection

Features:

- 12 Vdc Operation
- Day/Night Monitor
- Motion Detect Recording (Option)
- 10 Hours of Operation

Description:

Now! Set-up a portable day/night operation using a rifle scope that can be aimed in any direction. The KSC-4551/550R rifle scope maybe used also as a long term spotting operation. The day/night monitor allow easy viewing of the spotting/ rifle scope to be mounted in a car or hill top on a tripod aimed at the boarder, meth lab, SWAT operation, or hostage situation where more that one person may observe an incident. The video output from the scope may also be attached to our "Little Joe" and sent to a lap top computer via a Wi-Fi connection. Hide the spotting scope in the weeds and set in your car monitoring the scope with your laptop computer. Microphone input could be used with a shot gun microphone.
